Quality Products

ForzaStone™ panels are manufactured through a revolutionary process that combines 5mm of 100% sealed natural stone with 4mm of reinforced plastic ply laminate which is then reinforced with dual metal alloy backing for additional support.

Real Natural Stone
Because our panels are made of natural stone they won't fade or discolor over time. Each panel features soft colors and natural stone veins making each truly one-of-a-kind.

Easy to Clean & Maintain
100% sealed and waterproof, each ForzaStone grout-less panel requires minimal cleaning and maintenance.

Fast & Easy Installation
ForzaStone panels weigh only 3lbs per square foot which reduces transportation, labor and equipment costs. And because only standard tools are required installation and on-site customization is easy.

Lifetime Warranty
*Contact ForzaStone for warranty details.
